

The toolbar on the left contains icons for New, Open, Undo, Add Text, Add Image or Movie, Add Podcast, Add Page, Next Page, and Previous Page. The 'Page' menu is open, showing options for Editing Mode, Preview Mode, Add Text, Add Image or Movie, Add Podcast, Add Page, Next Page, and Previous Page.

How to Link Pages from Different WebBlender Files

The 'Add Page' submenu is open, showing options for New Blank Page, From Folder..., From Image File..., and From WebBlender File... The 'From WebBlender File...' option is highlighted with a mouse cursor.

If your kids are using a class logon, for example "car026," use the "Page" option, "Add Page" and choose from WebBlender File. Then, locate where you saved the file you want to insert, and open that file. It will automatically insert that file into your website.

Page 1

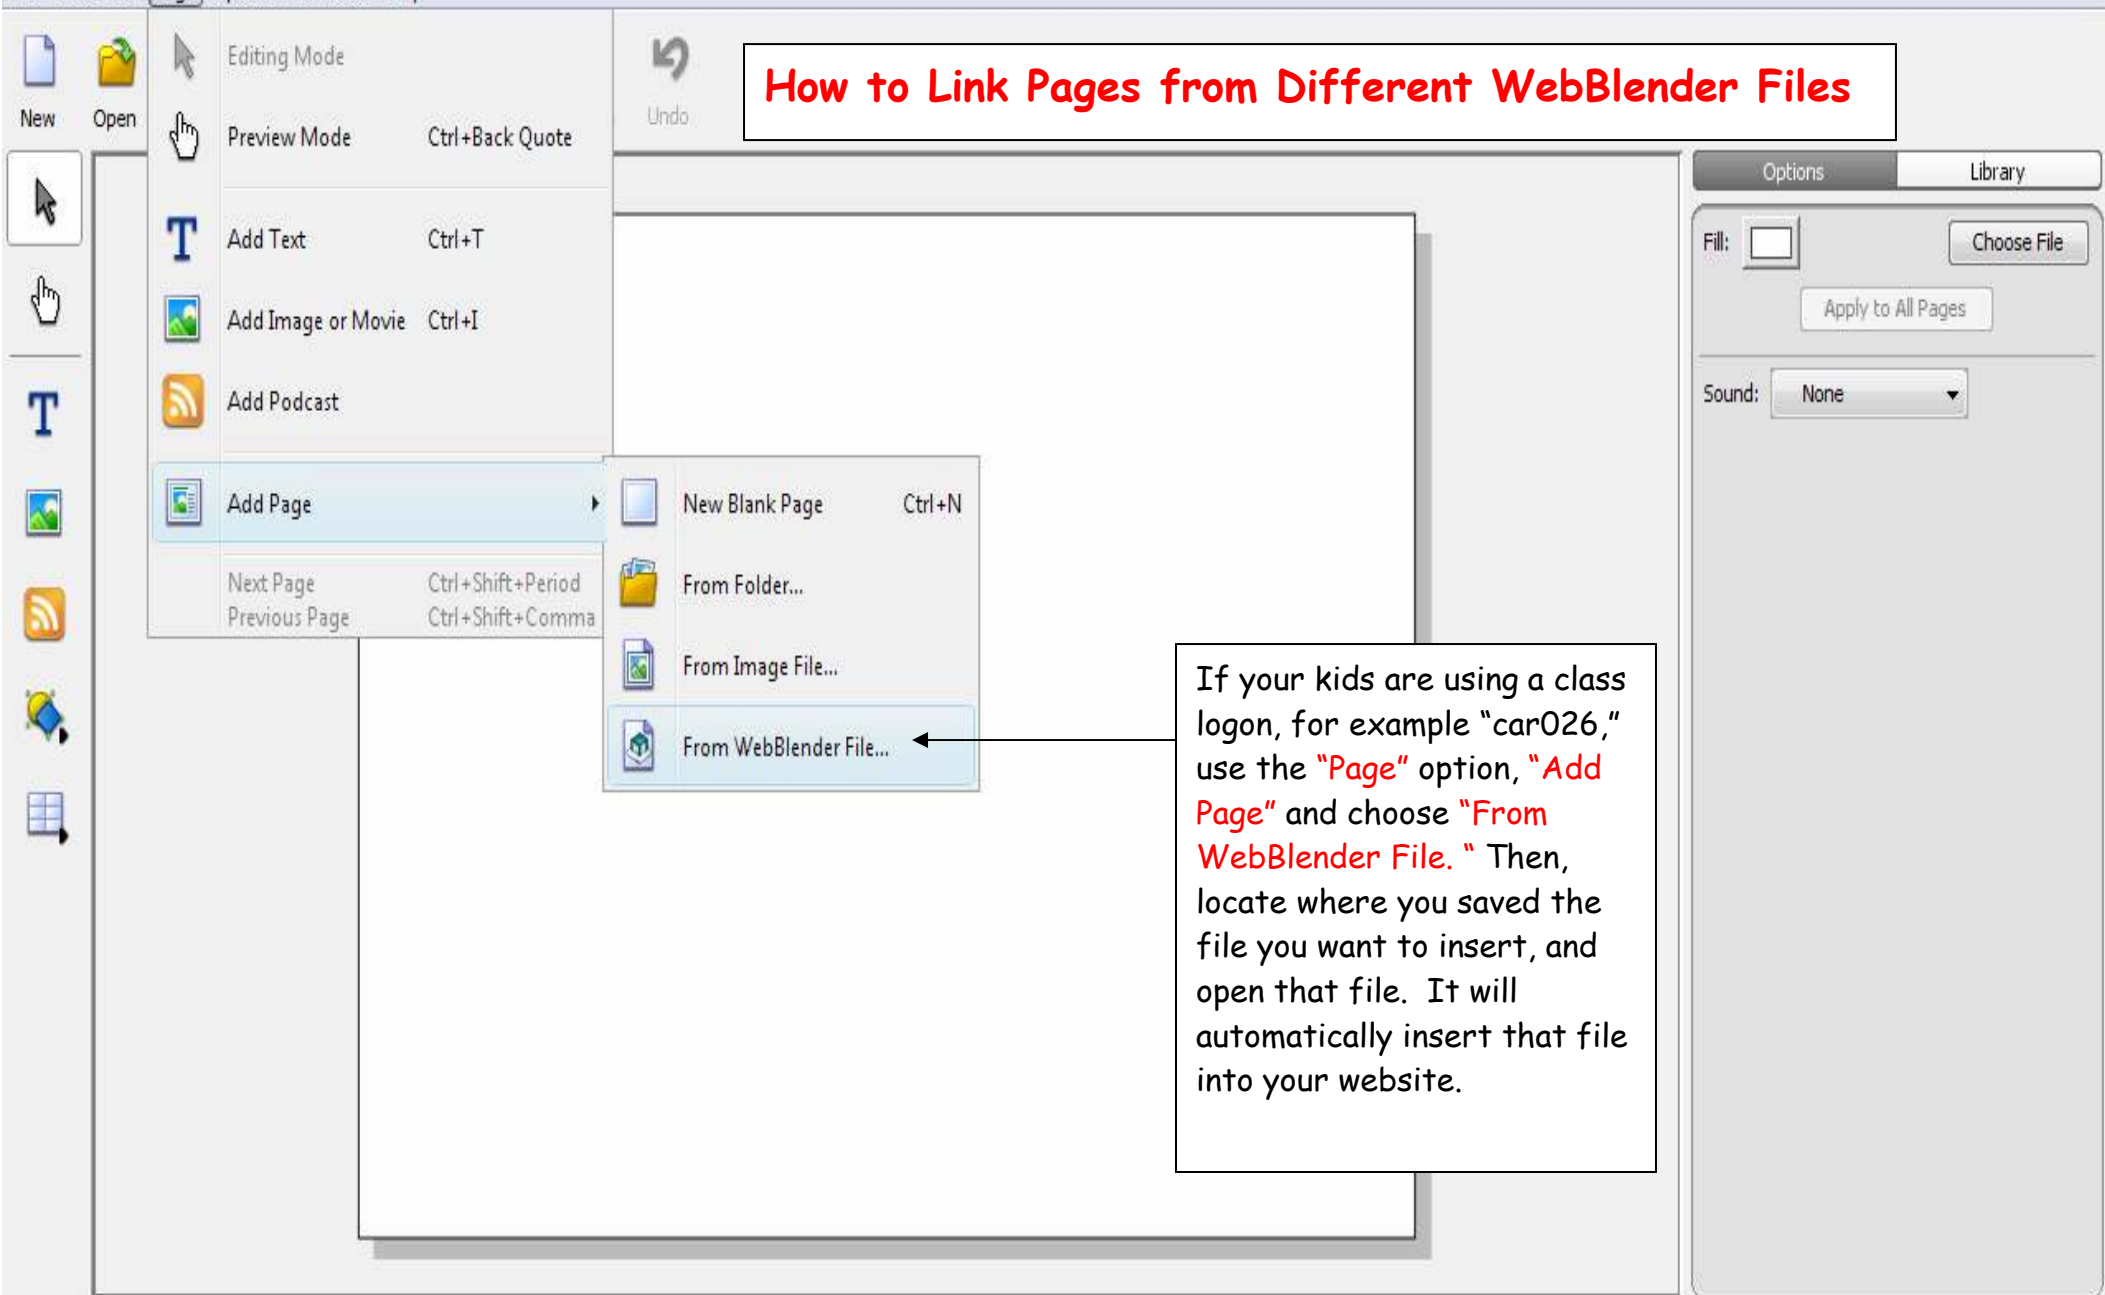

The screenshot shows the WebBlender software interface. The 'Page' menu is open, and the 'Add Page' option is selected, which has opened a sub-menu. In this sub-menu, the 'From WebBlender File...' option is highlighted with a mouse cursor. A red box at the top of the window contains the title 'How to Link Pages from Different WebBlender Files'. A text box on the right side of the window provides instructions on how to use the 'From WebBlender File...' option. The interface also shows a toolbar on the left with icons for 'New', 'Open', 'Add Text', 'Add Image or Movie', 'Add Podcast', and 'Add Page'. The 'Options' and 'Library' tabs are visible on the right side of the interface.
