

District Goals

Implement a new structure for facility use fees

- New three-tiered fee structure has been adopted by the board and implemented.

Develop a program to promote efficient use of energy

- An Electrical Initiative Savings Program was implemented for this school year. The program is competitively based and challenges schools to reduce gas and electrical expenditures.
- The Supervisor for Custodial Services completed an after-hours equipment audit and after-school lighting procedures. Information gained was used to develop operational procedures, which have been reviewed with all custodial staff members.
- Science teachers are scheduled to attend an alternative energy program for potential integration to district curriculum and programs.
