

District Goals

Increased development of Professional Learning Communities to enhance collaboration and focus on student achievement that includes the Schmoker process and monthly administrators meetings.

- Teacher leaders at the high schools have developed action plans to focus on student achievement in their content area at their school.
- The district is positioned to participate in a pilot with the MISD on Data Director, which will be extremely useful in making data part of the PLC discussion.
- Three-minute Walk Through refresher training has been provided for all district administrators.

Implement Phase II of Response to Intervention framework in language arts and research and develop plan for mathematics
