

## **District Goals**

### **Continue to support implementation of middle school mathematics to increase student achievement**

- New placement system for high school math classes has been reported by high school mathematics teachers to be effective.
- New Middle School Math Consultant provides individual support for teachers through modeling, providing resources and training.
- Five teachers are participating in the MISD Focus Group for implementing Navigators for the use of formative assessment.

### **Continue to support implementation of instructional strategies and assessments at middle school level to increase student achievement**
