

## **District Goals**

### **Develop and implement pyramid of intervention to ensure student success at the high school level**

- High School Intervention Committee's top priorities have been implemented and data has been collected, which will be reviewed second semester to determine progress.
- The Curriculum Department has worked with math teachers to determine appropriate class sequence and opportunities for support, which will be implemented for the 2009-2010 school year.
- Information on Positive Behavior Support for high schools has been presented to staff and training has begun.

### **Continue to support efforts and initiatives at high school level to enhance culture and build relationships**

- Curriculum has been developed for a Leadership Class, which will begin in the fall of 2009 at each high school.
