October 2020

To the Citizens and Board Members:

This introductory section of L'Anse Creuse Public Schools' (the "School District") annual financial report presents an overview of the School District, major initiatives, and program highlights.

Report Organization

This report is organized into three sections. The introductory section presents the organizational chart for the School District.

The financial section contains the auditor's opinion letter and the management's discussion and analysis report. The management's discussion and analysis report provides a more detailed analysis of the financial condition of the School District. The School District's basic financial statements, fund financial statements, and required supplemental information are also contained in this section. The statistical section presents selected financial and demographic information on a multi-year basis when appropriate.

Management's Discussion and Analysis

Generally accepted accounting principles under GASB Statement No. 34 require that management provide financial report users with a simple narrative introduction, overview, and analysis of the basic financial statements in the form of a management's

discussion and analysis (MD&A), which is required supplemental information. This letter of transmittal is meant to complement the MD&A and should be read in connection with it. The MD&A can be found immediately following the independent auditor's report in the financial section of this report.

School District Background

On March 12, 2020, the Governor of the State of Michigan closed schools state wide due to the outbreak of the Coronavirus. The two week closure soon turned into the remaining school year. However, education was to be continued. As a result, district officials had to make plans to switch from in person instruction to remote learning. The curriculum department developed a Continuity of Learning Plan, which was approved by the board of directors and sent to the state. Additionally, athletic events, community education programs and childcare programs were canceled or closed for the remainder of the school year. The food service department was called upon to continue to provide for families, which they did by distributing over 400,000 meals. The governor's orders also included the continuation of wage payments to all employees while they were at home during this shut down.

L'Anse Creuse Public Schools is a public school district operating under the laws of the State of Michigan to offer a free public education to all students within its boundaries. L'Anse Creuse Public Schools is located in the County of Macomb. The School District has an area of 35.4 square miles and includes all of Harrison Township, parts of Chesterfield, Clinton, and Macomb Townships, and small portions of the cities of Mount Clemens and St. Clair Shores. The School District is governed by a Board of Education consisting of seven publicly elected members.

The present School District resulted from the consolidation of five elementary school districts in 1954. Enrollment was then 1,600 students. Today approximately 548 teachers, providing for an approximate 19 to 1 teacher/student ratio, teach approximately 10,482 students. The School District is comprised of 9 elementary schools, four middle schools, and three traditional high schools, including the Frederick V. Pankow Center for Career Education, which offers comprehensive career and job training in business, health service, human service, trade, and industry. The DiAnne M. Pellerin Center is an NCA accredited, non-traditional high school that provides an alternative approach to the high school experience. The students at the DiAnne M. Pellerin Center, engage in academic activities that lead to a L'Anse Creuse diploma. In addition, L'Anse Creuse Public Schools

provides educational services to the Macomb County Juvenile Justice Center and adult education to the Macomb County Jail year-round.

The Comprehensive Annual Financial Report of L'Anse Creuse Public Schools for the fiscal year ended June 30, 2020 is submitted herewith. This report was prepared by the finance department and contains all activities under the control of the Board of Education. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the School District. We believe that the data, as presented, is accurate in all material respects and is presented in a manner designed to fairly set forth the financial position and results of operations of the School District as measured by the financial activity of its various funds, with all disclosures necessary to enable the reader to gain the maximum understanding of the School District's financial affairs. In accordance with the Board of Education's commitment to communication, detailed financial information related to the fiscal operations of the School District has been presented for public review on a timely basis throughout the year at monthly Board of Education meetings.

Economic Condition and Outlook

L'Anse Creuse Public Schools is maintained by the taxpayers of four townships (Harrison, Clinton, Chesterfield, and Macomb Townships) and small portions of the cities of Mount Clemens and St. Clair Shores. The taxable assessed valuations (TAVs) of these properties increased an average of 4.5 percent from the prior year. This increase in TAVs has a direct effect on the amount of revenue the School District will receive in state aid from the Michigan Department of Education. As the townships' TAVs increase, the local portion of revenue increases, and the Michigan Department of Education's portion of the foundation allowance decreases.

On March 15, 1994, Michigan voters went to the polls to vote on school funding reform. The ballot proposal passed, amending the State of Michigan Constitution. State Aid Act 5123, Sec. 20, (1) provides basic foundation allowance and a formula for a supplemental allowance for 1994–1995. Sec. 20, (2) is the language for the base allowance for 2019–2020. Sec. 147, (2) mandates the shifting of the employer's share for employee Social Security and state retirement costs previously paid by the State to the local district. The Michigan Public School Employees' Retirement System (MPSERS) underwent massive reform during the 2013 fiscal year. As a result of the reform, employees have options in which to

choose for retirement. Based on an employee's retirement choice, the MPSERS contribution rate can range from 20.96% to 27.16%.

L'Anse Creuse Public Schools is primarily made up of residential communities. The major industries are industrial and retail. One of the four communities within the district boundaries experienced an increase and three experienced a decrease in the issuance of single family building permits. Chesterfield Township shows a decrease of 15.96% in growth for 2018 and 2019. Macomb Township also showed a decrease of 3.62% in the number of single family building permits over the previous year, as did Clinton Township (69.1%). Harrison Township showed an increase of 63.6%.

L'Anse Creuse Public Schools owns and maintains 21 buildings, of which two are used for administrative and support services. Buildings were constructed between 1954 and 2013. In addition, improvements to buildings totaling approximately \$174,000,000 have been made in the past 15 years.

Major Initiatives

The L'Anse Creuse Board of Education adopted a strategic plan for the School District during 2013–2014. The committee consisted of several board members, School District administrators, teachers, support staff, students, and parents. They met several times in the spring to collaborate on the School District's goals. The plan was presented and approved by the Board of Education in June 2014.

The mission statement answers our reason for being. It is: "To create a challenging collaborative learning community which prepares all students for success in global society". The goals of the strategic plan are as follows:

- 1. Engage students in real-world experiences that develop life-long learners to be successful in a technological and dynamic global society
- 2. Provide all students within our community with opportunities and experiences that encourage and challenge them to reach their personal best.

- 3. Ensure financial stability while maintaining high quality educational programs and services for all.
- 4. Strengthen our evolving identity where all community members celebrate successes, promote community pride and believe and support L'Anse Creuse is the home of the best students, parents and educators.

In addition to the mission, we have seven beliefs:

- 1. High academic and behavioral expectations for all learners
- 2. A safe and nurturing learning environment
- 3. Instruction that prepares students for a global society
- 4. Fiscal responsibility
- 5. Respect for all individuals
- 6. Collaborative partnerships with community members, parents and teachers
- 7. The importance of district tradition and history

We believe that a strategic plan results in a common purpose, common sense of direction, priorities for change, protection against overextending, goal-orientation, and longer-term effort.

For the Year - L'Anse Creuse Public Schools believes that an alcohol- and drug-free school system is essential for a healthy community. The challenge of meeting this belief is aided by the activities of the L'Anse Creuse Community Action Coalition (CAC).

The CAC is composed of school staff, business leaders, law enforcement officials, and health and service professionals who work as a team to promote, enhance, and maintain a zero tolerance policy regarding alcohol, tobacco, and other drugs, while helping students cope with the day-to-day stresses of being a teen.

L'Anse Creuse Public Schools voluntarily participates in AdvanceED accreditation at the high school level. All high schools are presently accredited by AdvancED.

L'Anse Creuse attendance rates average more than 93 percent daily. Scholarship monies offered to L'Anse Creuse seniors total approximately \$7 million. All L'Anse Creuse High Schools students take the PSAT and SAT test.

Many L'Anse Creuse students and staff continue to be recognized for excellence through state and national awards. They received honors in writing, speech, music, athletics, co-teaching, art, technology, science, reading, journalism, and more. To enhance effective aspects of the educational process, both high schools instituted a community service requirement. L'Anse Creuse's class of 2020 contributed over 55,000 hours of service. This is viewed as a model throughout the state for the students and staff of other districts.

The L'Anse Creuse Foundation is an independent, nonprofit organization formed in 1989 by community business members and L'Anse Creuse Public Schools. The Foundation is dedicated to obtaining additional financial resources for students within the School District to enhance educational opportunities and provide scholarships. To date, the Foundation has been able to award over \$650,000 in grants and scholarships. This past year, it awarded nearly \$16,000 in grants to teachers and \$10,000 in scholarships for graduating high school seniors and \$10,000 in special funding for events and projects district wide.

In June 2010, the Boards of Education for L'Anse Creuse Public Schools and New Haven Community Schools entered into a shared service agreement. The first agreement went into effective for the 2011 fiscal year. The Board has elected to continue the agreement through the 2020 fiscal year. Under this agreement, L'Anse Creuse Public Schools shall provide certain information technology services for New Haven Community Schools and grant management services.

For the Future - Michigan Public Acts 25 and 335 (P.A. 25 and P.A. 335) of 1990 made changes in the School Code of Michigan. P.A. 335 further expanded P.A. 25. P.A. 25 requires annual reporting on at least the following seven areas:

School improvement

- Core curriculum
- Accreditation
- Student achievement
- Parent participation
- Retention rates
- Specialized schools

P.A. 335 requires grade level indicators be developed and distributed to parents, students, and the community.

Every year, written annual reports are posted on each school's web page, as well as the School District's website. Written copies are available through the Office of Community Relations.

Implementation of essential curriculum is crucial to our mission of teaching all students. We are constantly working on revising and aligning our curriculum. We continue to fully implement the Michigan State Standards, as required by the Michigan Department of Education. We will continue to monitor curriculum and student achievement in English, mathematics, science, and social studies. Instructional strategies, assessments, and class offerings are monitored and adjusted regularly. L'Anse Creuse Public Schools continues a commitment to building a strong academic program through quality curriculum alignment and professional development.

Department Focus – L'Anse Creuse Public Schools employs one teacher for every 19 students. We are very proud of the accomplishments of our dedicated, hard-working staff over the past year. Some of the more significant department accomplishments are as follows:

• Students certified by the L'Anse Creuse special education department receive vocational programming beginning at the elementary school level that continues through the middle school program. The first two years of high school continue to emphasize the vocational application of the skills learned in the subjects taken by the students. Beginning in their junior year, the students have a variety of vocational training and work placement opportunities available to them. The special education department participates in the Michigan Business Partnership School Adoption Program, Community-

based Vocational Programs, MDE Cash Match Program, Targeted Job Tax Credit Program through the Michigan Employment Security Agency (MESA), and our own work study program. Each of the programs provides opportunities for students receiving special education services.

- Co-teaching at the elementary and secondary levels continues to prove very effective at improving the social and
 educational skills of the students involved. This is achieved through a partnership between special education and
 general education teachers who work together to take an active role in the teaching responsibilities of students
 receiving special education services. Overall, this is an excellent program undergoing continuous and positive
 changes.
- L'Anse Creuse conducts a preschool screening program for all four-year-old children in the School District. This past year, 221 phone calls were made and 74 children participated in the screening process. This process provides the parent with information concerning the pre-kindergarten readiness skills of their children.
- In addition to preschool screening, L'Anse Creuse Public Schools operates five Early Childhood Special Education programs for the preschool-age student. These programs provide the children with a rich language development-based curriculum that maximizes each child's ability to grow socially and increases his or her readiness skills. This year, approximately 97 children were involved in this preschool experience.
- L'Anse Creuse Public Schools offers a number of excellent pre-kindergarten programs. The L'Anse Creuse Early Childhood Program offers tuition-based preschool, The Great Start Readiness Program, parent/child interactive and early learning programs, before and after school care, toddler care, full-day childcare, and summer mini-camps. The main goal is the healthy development of children in a loving and caring environment with the focus on child-centered activities and the development of the whole child.
- The L'Anse Creuse Hybrid Initiative involves the development of high school hybrid courses. In these courses, a portion of the instruction is traditional face-to-face instruction while the other portion occurs during online days, for which students are not required to be present if they maintain a minimum grade point average. Hybrid teachers utilize

online collaborative platforms to disseminate curriculum and encourage classroom participation. Evidence indicates the program has been successful in terms providing students with a college preparatory experience in terms of the inevitable encounter of varied format classes. Furthermore, it has provided our staff members with the opportunity to utilize a variety of formats to reach their students. It has also provided an opportunity for increased professional development in areas of the blended classroom experience.

- The L'Anse Creuse Center for Lifelong Learning (CLL) is a program that caters to the unique educational needs of individuals ages 17 and older in the areas of high school completion, GED preparation, literacy development, ESL (English as a Second Language), career retraining programming, and testing/assessment opportunities. The district approved the closing of the CLL building in Mt. Clemens. The programs moved to the DiAnne Pellerin Center starting with the 2018–2019 school year.
- The DiAnne M. Pellerin Center provides alternative educational programming for local students ages 14–19 in core academic content areas and elective programming such as art, technology, and vocational education. A cornerstone to the program is a highly effective, required, counseling component that assists students to deal with social, behavioral, and emotional issues that may have previously contributed to lower academic achievement in the student. The students engage in interactive learning activities in a small environment, which also provides growth in student organizations, activities, and events. The DiAnne M. Pellerin Center has been accredited by NCA–CASI.

The DiAnne M. Pellerin Center has a program designed to meet the individual needs of students who attend. The Center focuses on each student's individual learning needs and curricular concerns. Students work on self-paced curriculum with extensive tutoring support. Students can expedite their progress in higher-level learning curriculums.

• The Macomb County Juvenile Justice Center School is a unique public school program operated by L'Anse Creuse Public Schools Department of Special Education in conjunction with the Macomb County Juvenile Court. Two major goals of the program are to provide a positive learning environment and to improve student competency for delinquent, neglected, and/or abused children who reside in the Juvenile Justice Center. The Macomb County Juvenile Justice Center School had 472 enrollments in 2019–2020 (August–June). The summer school program (June 2020 – August

2020) did not take place due to Covid-19. The facility includes 140 beds and is accredited through the Correctional Education Association as meeting specific national standards.

- Correctional education provides a comprehensive curriculum for incarcerated adults housed in the Macomb County Jail. The curriculum for this department of adult education is broad-based and encompasses academic classes, General Equivalency Degree (GED) preparation, career counseling, employability skills, and transition services.
- The L'Anse Creuse Community Education Program is a full-service program that provides educational, enrichment, fitness and recreational activities for students from preschool age to senior citizen status. In 2019–2020, the Community Education Program served in excess of 4,500 residents of the community. The Trips and Tours program offered 44 trips while the Athletics Program served over 600 students and community members. The Summer Athletic Camps served 420 students introducing them to a new sport experience or enhancing their skills. The program also offers senior citizens a varied schedule of free and fee-based classes and activities that help to meet the educational, recreational, and social needs of the senior citizen community.
- The School Age Child Care Program offers before and after-school child care services in nine elementary buildings when school is in session. The program is licensed by the state of Michigan and is staffed by certified child care workers. In the 2019-2020 school year, the program serviced 1,321 students, ages 5-12.
- Summer day camp is provided at two school buildings within the School District for summer child care services. The all-day program features field trips, special events, science and technology experiences, fitness and recreational opportunities for children ages 5-12 years. In 2019-2020, we served 330 students.
- The School District has a unique program to help its students. Recognizing that for some students the only meal of the day comes from the federally funded National School Lunch free or reduced breakfast and lunch program, the School District partnered with Gleaners Food Bank and started the Food- 4-Kids Program. The monthly program provides non-perishable food as well as fresh fruit, vegetables, and large packages of beef or chicken. The program served approximately 100 students each month. The School District, recognizing that there is still a need during the summer months, continued the program during the summer. In summer 2020, over 150 were enrolled in the program.

- After the beginning of the unanticipated school closure in March, the district initiated a program to provide meals to needy families in our community. The program offered safe, contact-free meal pickup free of charge. At each location, families received a meal kit providing seven days' of breakfast and lunch items to be prepared at home. Pickup was available at two buildings throughout the district. Between March 16th and June 30th the district served almost 400,000 meals.
- In June through August, the School District, through the Summer Food Service Program, offered a summer meal program to the School Districts' students. The program, called Meet Up and Eat Up, was a continuation of the meal services we provided during the unanticipated school closure in the spring. The program had two pickup sites (providing at-home meal kits) as well as two summer camp sites (providing hot lunch served on site). A total of 138,282 free meals were served to local children. The district also distributed backpacks to 50 kids filled with school supplies.

Internal Accounting Controls

An internal control system has been designed to ensure that the assets of L'Anse Creuse Public Schools are protected from loss, theft, or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurances recognizes that (1) the cost of the control should not exceed the benefits likely to be derived and (2) the valuation of cases and benefits requires estimates and judgments by management. As a recipient of federal and state financial assistance, L'Anse Creuse Public Schools is responsible for ensuring that an adequate internal control system is in place to ensure compliance with applicable laws and regulations related to those programs. The internal control system is subject to periodic review by management.

As part of the L'Anse Creuse Public Schools single audit, internal controls over financial reporting were considered in the planning and performance of the audit, and tests of compliance with certain provisions of laws, regulations, contracts, and grants were performed. The results of L'Anse Creuse Public Schools' single audit for the fiscal year ended June 30, 2020

provided no instances of material weaknesses in the internal control system or violations of applicable laws and regulations.

Budgetary Control

The level of budgetary control (that is, the level at which expenditures cannot legally exceed appropriated amounts) is established in accordance with a resolution of the L'Anse Creuse Public Schools Board of Education. Budgets are legally adopted for the General Fund and the special revenue funds.

The School District's budgetary control and system of internal accounting were designed to adequately safeguard assets and provide reasonable assurances of proper recording of financial transactions. A budget oversight and development process is in place that is focused on achievement of the School District's strategic plan. Ultimate budget oversight for the entire School District rests with the superintendent and the assistant superintendent for business and operations. Budget variances are discussed in the management's discussion and analysis and detailed in Note 2 to the financial section.

The report of L'Anse Creuse Public Schools' independent certified public accountants, Yeo & Yeo, appears on pages 2-X of this report. Their audit of the basic financial statements was performed in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* and, accordingly, included consideration of the Board of Education's system of budgetary and accounting controls.

Independent Audit

State of Michigan statutes require that each school district have an annual audit conducted by independent certified public accountants. The L'Anse Creuse Public Schools Board of Education appointed the accounting firm of Yeo & Yeo, to perform this service for the 2019–2020 fiscal year. In addition, OMB Circular A-133 requires that all governmental recipients of federal assistance have organizational-wide financial and compliance audits on an annual basis. Both of these requirements have been met. The auditor's report on the basic financial statements is included herein, with an unqualified opinion, containing no scope limitations.

Acknowledgements

The preparation of this report on a timely basis could not have been accomplished without the effort and dedicated services of the entire staff of the financial department. We would like to express our appreciation to all the members of this office who assisted in the timely closing of the School District's financial records and the preparation of this report.

We would also like to express our appreciation to other departments and individuals who assisted in the preparation of this report.

Sincerely,

Erik Edoff

Independent Auditor's Report

Management and the Board of Education L'Anse Creuse Public Schools Clinton Township, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of L'Anse Creuse Public Schools, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of L'Anse Creuse Public Schools, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Adoption of New Accounting Standard

As described in Note 1 to the financial statements, during the year ended June 30, 2020, the School District adopted GASB Statement No. 84, *Fiduciary Activities*. Our opinions are not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the school district's proportionate share of the net pension liability, schedule of the school district's pension contributions, schedule of the school district's proportionate share of the net OPEB liability, and schedule of the school district's OPEB contributions identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively L'Anse Creuse Public Schools' basic financial statements. The other supplementary information, introductory section, and statistical section and other information, as identified in the table of contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements.

The other supplementary information, as identified in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information, as identified in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section and other information, as identified in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 20, 2020 on our consideration of L'Anse Creuse Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of L'Anse Creuse Public Schools' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering L'Anse Creuse Public Schools' internal control over financial reporting and compliance.

yeo & yeo, P.C.

Flint, Michigan October 20, 2020

This section of L'Anse Creuse Public Schools' (the "School District") annual financial report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2020. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand L'Anse Creuse Public Schools financially as a whole. The district-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the district-wide financial statements by providing information about the School District's most significant funds - the General Fund, the 2017B Refunding Bond and the 2010 Series A Capital Projects Fund - with all other funds presented in one column as nonmajor funds. Three of the remaining statements, the statement of fiduciary net position, the statement of changes in fiduciary net position and the statement of changes in assets and liabilities present financial information about activities for which the School District acts solely as an agent for the benefit of students and parents. The other remaining statements relate to the School District's Proprietary Funds (Internal Service Funds).

Reporting the School District as a Whole - District-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School District's net position - the difference between assets and liabilities, as reported in the statement of net position - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net position - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net position and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, athletics, child care, and food services. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Most Significant Funds - Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Food Service Fund is an example) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental Funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending.

They are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides.

Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in reconciliations.

Proprietary Funds – Proprietary fund reporting focuses on economic resources measurement and full accrual accounting. The proprietary fund statements present a long-term view of operations and the services it provides to other funds. Revenue and expenditures are recorded when earned or obligated, regardless of when the cash is actually paid.

The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for one fiduciary fund. The student activity fund represents the activities of the student and parent groups for school and school-related purposes and are considered an Agency Fund. The scholarship fund is considered a private purpose trust which includes contributions received by the School District to be awarded in the form of scholarships. All of the School District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Table 1 provides a comparative summary of the School District's net position as of June 30:

Table 1	Governmental Activities		
	Ju	ne 30	
	2019	2018	
Aparta	(in n	nillions)	
Assets Current and other assets Capital assets	\$ 27.4 227.7		
Total assets	255.1	265.7	
Deferred Outflows of Resources	83.4	53.5	
Total assets and deferred outflows of resources	338.5	319.2	
Current liabilities Net pension liability Net OPEB liability Long-term liabilities Total liabilities	16.0 212.5 54.9 296.7 580.1	189.3 64.7	
Deferred Inflow of Resources	40.7	25.3	
Total liabilities and deferred inflows of resources	620.8	598.6	
Net Position Net investment in capital assets Restricted Unrestricted	(54.6 2.6 (230.3	´ 2.8´	
Total net position	\$ (282.3) \$ (279.4)	

The above analysis focuses on the net position (see Table 1). The change in net position (see Table 2) of the School District's governmental activities is discussed below. The School District's net position was a deficit of \$287.6 million at June 30, 2020. Capital assets, net of related debt totaling a negative \$53.8 million, compares the original cost, less depreciation, of the Schools Districts capital assets, to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use this net position for day to day operations. The remaining amount of net position (a deficit of \$237.0 million) was unrestricted.

As required by the Government Accounting Standards Board (GASB) the School District adopted GASB 68 and 71. These standards required the inclusion of the district's proportionate share of the pension portion of the Michigan Public School Employees Retirement Plan within the District's financial statements, effective July 1, 2014. The effect of the adoption was to decrease July 1, 2014 beginning net position by \$165.2 million and the inclusion of the obligation, and related deferred inflows and outflows, in the June 30, 2015 financial statements. Similarly, effective July 1, 2017, the District adopted GASB 75, which requires the District to record our proportionate share of the OPEB portion of the retirement plan liability. The effect was a restatement of beginning net position at July 1, 2017 of \$62.3 million. All governments participating in the retirement plan were required to adopt these new standards.

The \$237.0 million deficit in unrestricted net position of governmental activities represents the accumulated results of all past years' operations – of note, this also includes the restatement to recognize the OPEB liability as described above. The unrestricted net position balance enables the School District to meet working capital and cash flow requirements as well as to provide for future uncertainties. A total of \$277.0 million of this deficit unrestricted net position is the School Districts proportionate share of the net pension and OPEB liabilities related to the Michigan Public School Employees' Retirement System. The operating results of the General Fund will have a significant impact on the change in unrestricted net position from year to year.

The results of this year's operations for the School District as a whole are reported in the statement of activities, which shows the changes in net position for fiscal years 2020 and 2019 (see Table 2).

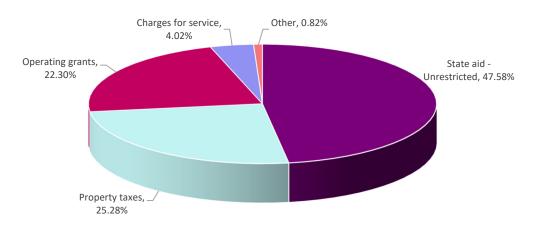

Table 2		Governmental Activities			
	•	Year Ende	ed Ju	ne 30	
		2019		2018	
		(in mi	llions	3)

Total functions/program expenses		135.9		138.9	
Decrease in Net Position		(2.9)		(8.1)	
Net Position - Beginning of year		(279.4)		(209.0)	
Restatement for GASB 75				(62.3)	
Net Position - End of year	\$	(282.3)	\$	(279.4)	

As reported in the statement of activities, the cost of all of our governmental activities this year was \$141.3 million. Certain activities were partially funded from those who benefitted from the programs, \$5.4 million, or by other governments and organizations that subsidized certain programs with grants and contributions, \$30.0 million. We paid for the remaining "public benefit" portion of our governmental activities with \$34.0 million in taxes, \$64.0 million in unrestricted state aid, and \$1.1 million of our other revenue comprised of interest and general entitlements.

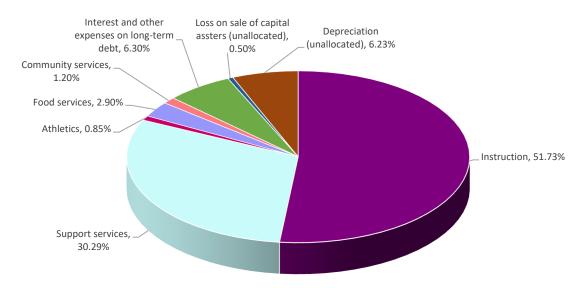

The School District experienced a decrease in net position of \$6.8 million. Key reasons for the change in net position are comprised of an increase in net pension liability of \$15.3 million, a decrease in OPEB liability of \$5.7 million, offset by a negative change in deferral of resources relating to pension and OPEB of \$.5 million. Long-term liabilities had a net decrease of \$10.1 million due primarily to repayment of principal. Capital assets had a net decrease of approximately \$8.1 million due to provisions for depreciation in the amount of \$8.6 million plus the disposal of capital assets costing \$2.5 million which resulted in a loss of \$.7 million. A reconciliation of the changes in net position appears in the basic financial statements.

As discussed above, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of district operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with state-prescribed available unrestricted resources.

Analysis of Revenue – Governmental Activities Year Ended June 30, 2020

Analysis of Expenses - Governmental Activities Year Ended June 30, 2020

L'Anse Creuse Public Schools

Management's Discussion and Analysis (Continued)

The School District's Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As the School District completed this year, the governmental funds reported a combined fund balance of \$12.2 million, which is an increase from last year of \$2.7 million. The primary reasons for changes within major funds are as follows:

- In the General Fund, our principal operating fund, the fund balance increased approximately \$1.0 million to \$6.0 million.
- The total of the other funds increased \$1.7 million of which \$1.4 million is a result of the adoption of GASB 84 for Student/School Activity Fund, as well as increases in Food Service of \$129,000 and the Debt Service Fund by \$55,000.
- The proprietary fund accounts for certain services provided to other funds on a cost reimbursement basis. The activity in these funds reflects expenditures or transfers from the other funds totaling approximately \$2.5 million, which represents the cost of the obligations from previous year as well as current year activities.

General Fund Budgetary Highlights

Over the course of the year, the School District reviews its budget as it attempts to deal with unexpected changes in revenue and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided as required supplementary information of these financial statements. A summary of the significant deviation from budget to actual is as follows:

- The variance between the budgeted and actual revenue was unfavorable by approximately \$1.4 million or 1.3%. The unfavorable variance is due to the proration of the foundation allowance by the state, which was reflected on the August 2020 state aid report. Expenditures were favorable to budget by approximately \$1.5 million or 1.5%.
- Overall, the General Fund resulted in a favorable variance of approximately \$.2 million.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2020, the School District had \$219 million invested in a broad range of net capital assets, including buildings improvements, vehicles, furniture, and equipment. This amount represents a net decrease (including additions, disposals and depreciation) of approximately \$8.3 million, or 3.6% under last year.

		<u>2019</u>	2018
Land	\$	7,297,620	\$ 9,775,916
Construction in progress		1,006,367	2,824,320
Buildings and building improvements		343,359,824	341,532,995
Buses and other vehicles		7,922,997	7,193,599
Furniture and equipment		48,477,975	 48,000,594
Total capital assets		408,064,783	409,327,424
Less accumulated depreciation		180,396,389	 171,630,891
Net capital assets	\$	227,668,394	\$ 237,696,533

This year's reduction of net capital assets includes depreciation of approximately \$8.6 million. New purchases for building improvements, furniture and equipment, technology, as well as buses comprise the balance of approximately \$1.4 million. Existing debt originally issued in 2006 funded all additions.

We present more detailed information about our capital assets in Note 5 to the financial statements.

L'Anse Creuse Public Schools

Management's Discussion and Analysis (Continued)

Debt

At the end of this year, the School District had approximately \$219.4 million in bonds outstanding versus \$260.5 million in the previous year – a decrease of 15.7 percent.

 Z019
 Z018

 General obligation bonds
 \$ 260,475,000
 \$ 272,620,000

The School District's general obligation bonds have ratings of A and AA. The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issues "qualified debt," i.e., debt backed by the State of Michigan, such obligations are not subject to this debt limit. All of the School District's bonded indebtedness is qualified, not subject to the statutorily imposed bonded debt limit of \$482.3 million.

Other obligations include School Loan Revolving Fund obligations, accrued vacation and sick leave pay, and bond premiums and discounts, totaling \$71.9 million. We present more detailed information about our long-term liabilities in Note 8 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration consider many factors when setting the School District's 2020-2021 fiscal year budget. One of the most important factors affecting the budget is our student count. The state foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2020-2021 fiscal year is anticipated to be 75 percent of the final 2020 count and 25 percent of the October 2020 student count, respectively. This was a change approved as part of the state's budget to allow district to adjust to changes as a result of the Return to Learn Plan and how instruction will safely be carried out during a pandemic. The 2020-2021 budget was adopted in June 2020, based on the April membership count as it was anticipated at the time we would be paid on this count. The budget did include a foundation allowance reduction of \$400 per pupil due to the state's projection of loss revenue due to the pandemic. The budget also reflected the county's enhancement millage that was approved in March 2020 at approximately \$4.4 million for the district. It should be noted as the date of the district's budget approval, the state did not have an approved budget for the School Aid Fund. Approximately 80 percent of total General Fund revenue is from the foundation allowance. Under state law, the School District cannot assess additional property tax revenue for general operations. As a result, School District funding is heavily dependent on the State's ability to fund local school operations. The State finalized a school aid bill with a foundation allowance at the same level as 2020, which is \$8,282 for L'Anse Creuse Public Schools. The budget will be adjusted accordingly in the fall based on the October 2020 audited pupil count.

Since the School District's revenue is heavily dependent on state funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue to fund its appropriation to school districts.

The School District currently has six unions as part of its workforce. TPOAM represents two support services areas. The food service and the 52 week employees, which include custodians and maintenance workers has a contract extension through October 31, 2020. The transportation

department, represented by the 214 Teamsters, has contract through December 31, 2023. The teachers' contract, MEA Local 1 will expire August 31, 2022. The Clerical contract, MEA-NEA Local 1 will expire June 30, 2022. The Parapro contract, AFSCME Local 1993 will expire December 31, 2023. The Administrators association agreement expires July 31, 2023.

Contacting the School District's Financial Management

This financial report is designed to provide the School District's citizens, parents, and investors with a general overview of the School District's finances and to demonstrate the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the business office at the Harry L. Wheeler Community Center, 24076 F.V. Pankow Boulevard, Clinton Township, Michigan 48036.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2020

Net change in fund balances - Total governmental funds	\$	1,344,963
Total change in net position reported for governmental activities in the statement of activities is different because:		
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds. Capital grants		(54,636)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Depreciation expense Capital outlay Sale of capital assets (net book value)		(8,674,148) 449,456 (72,908)
Expenses are recorded when incurred in the statement of activities. Interest Special termination benefits		206,834 29,200
The statement of net position reports the net pension liability and deferred outflows of resources and deferred inflows related to the net pension liability and pension expense. However, the amount recorded on the governmental funds equal actual pension contributions. Net change in net pension liability Net change in the deferral of resources related to the net pension liability	((15,355,336) 2,082,434
The statement of net position reports the net OPEB liability and deferred outflows of resources and deferred inflows related to the net OPEB liability and OPEB expense. However, the amount recorded on the governmental funds equals actual OPEB contributions. Net change in net OPEB liability Net change in the deferral of resources related to the net OPEB liability		5,745,715 (1,565,339)
Bond and note proceeds and capital leases are reported as financing sources in the governmental funds and thus contribute to the change in fund balance. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduced the liability in the statement of net position. Also, governmental funds report the effect of premiums, discounts and similar items when debit is first issued, whereas these amounts are recorded as liabilities and amortized in the statement of activities. When debt refunding occurs, the difference in the carrying value of the refunding debt and the amount applied to the new debt is reported the same as regular debt proceeds or repayments as a financing source or expenditure in the governmental funds. However, in the statement of net position, debt refunding may result in deferred inflows of resources or deferred outflows of resources, which are then amortized in the statement of activities.		
Debt issued Repayments of long-term debt Interest accrual on school bond loan fund Amortization of deferred amount on debt refunding Amortization of premiums		(85,478,201) 94,030,000 (497,389) (98,192) 1,107,360
Change in net position of governmental activities	\$	(6,800,187)

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the L'Anse Creuse Public Schools (School District) conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the School District's significant accounting policies:

Reporting Entity

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. The School District is not included in any other governmental "reporting entity" since the board members are elected by the public and have decision-making authority, the authority to levy taxes, the power to designate management, the ability to significantly influence operations, and primary financial accountability for fiscal matters. Based on the application of the criteria, the School District does not contain any component units.

District-wide Financial Statements

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's district-wide activities are considered governmental activities. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are

offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes, intergovernmental payments, and other items not properly included among program revenue are reported instead as general revenue.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The district-wide focus is on the sustainability of the School District as an entity and the change in the School District's net position resulting from current year activities.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers

revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the School District.

Proprietary and Fiduciary fund statements are reported using the economic resources measurement focus and the accrual basis of accounting. Proprietary funds distinguish between operating revenues and expenses from nonoperating items. Operating revenues and expenses for the proprietary fund generally are charges to other funds and payments for employee compensated absence liabilities, respectively. All revenues and expenses not meeting the above definition are reported as nonoperating revenues and expenses.

The School District reports the following major governmental funds:

<u>General Fund</u> –The General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

<u>2017B Refunding Fund</u> - The 2017B Refunding Fund is used to record tax, interest, other revenue for payment of interest and principal, and other expenditures on the bond issues.

Additionally, the School District reports the following fund types:

<u>Special Revenue Funds</u> – Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes. The School District's special revenue funds consist of the Food and Nutrition Fund and the Student/School Activity Fund.

<u>Debt Service Funds</u> – The debt service funds are used to record tax, interest, other revenue for payment of interest and principal, and other expenditures on the bond issues.

Capital Projects Funds – The 2010A Capital Projects Fund is used to record bond proceeds and other revenue and the disbursement of invoices specifically designated for the purpose of financing the third phase of erecting, furnishing, and equipping a new administration building; an addition to an existing elementary school for a child care center; acquiring and installing educational technology improvements; acquiring school buses; acquiring additional land and developing and improving playgrounds, play fields, athletic fields, facilities, and sites; and paying the costs of issuing the bonds. The 2008 Capital Projects Fund is used to record bond proceeds and other revenue and the disbursement of invoices specifically designated for the purpose of these bond projects. The 2019 Capital Projects Funds are used to account for proceeds from the sale of capital assets that were acquired with funds restricted for those purposes as well the related expenditures.

<u>Internal Service Fund</u> – The purpose of the internal service fund is to account for certain services provided to other funds on a cost-reimbursement basis. The Compensated Absences Fund accounts for compensated absence liabilities due to employees upon separation from the School District based on negotiated terms in the collective bargaining agreements.

<u>Fiduciary Funds</u> – Fiduciary Funds are used to account for assets held by the School District in a trustee capacity or as an agent. The Private-Purpose Trust Funds are funds entrusted to the School District for scholarship awards and related expenses and the principal and interest of the trust may be spent.

Assets, Liabilities and Net Position or Equity

<u>Cash and Investments</u> – Cash and investments includes cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Receivables and Payables – In general, outstanding balances between funds are reported as "due to/from other funds." Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds." All outstanding balances are expected to be paid within one year.

All trade and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all accounts receivable to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 31 and are billed and become a lien on July 1 of the following year. Taxes are considered delinquent on March 1 of the following year. At this time, penalties and interest are assessed and the total obligation is added to the county tax rolls.

<u>Inventories and Prepaid Items</u> – Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid assets in both district-wide and fund financial statements and accounted for using the purchases method.

<u>Restricted Assets</u> – Restricted assets exist when their use is constrained for a particular purpose. This includes the unspent bond

proceeds of the bonded capital projects funds and amounts legally segregated for payments of debt.

<u>Capital Assets</u> – Capital assets, which include land, buildings, equipment, vehicles, and construction in progress, are reported in the district-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$20,000 for land improvements and buildings and \$2,500 for all remaining asset classifications. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their acquisition value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized.

Buildings, equipment, and vehicles are depreciated using the straightline method over the following useful lives:

Buildings and additions	20-50 years
Equipment and furniture	5-20 years
Buses and other vehicles	5-15 years

<u>Deferred Outflows of Resources</u> – A deferred outflow of resources is a consumption of net position by the government that is applicable to a future reporting period. Deferred amounts on bond refundings are included in the district-wide financials statements. The amounts represent the difference between the reacquisition price and the net carrying amount of the prior debt. For district-wide financial statements, the School District reports deferred outflows of resources as a result of pension and OPEB plan earnings. This amount is the result of a difference between what the plan expected to earn from plan investments and what is actually earned. This amount will be amortized over the next four years and included in pension and OPEB expense. Changes in assumptions and experience differences relating to the net pension and OPEB liabilities are deferred and amortized over the expected remaining services lives of the employees and retirees in the plans. The School District also reported deferred outflows of resources

for pension and OPEB contributions made after the measurement date. This amount will reduce the net pension and OPEB liabilities in the following year. Deferred outflows are also reported for changes in the fair value of interest rate swap agreements.

<u>Compensated Absences</u> – The liability for compensated absences reported in the Compensated Absences Internal Service Fund consists of earned but unused accumulated vacation and sick leave benefits as well as termination payments. Compensated absences are earned and accumulated based on the provisions of the respective collective bargaining agreements. The liability has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments at normal retirement age and other employees who are expected to become eligible in the future to receive such payments upon normal retirement are included.

<u>Long-term Obligations</u> – In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as debt service expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period.

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

<u>Pension</u> – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to

pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>Postemployment Benefits Other Than Pensions</u> – For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>Deferred Inflows of Resources</u> – A deferred inflow of resources is an acquisition of net position by the government that is applicable to a future reporting period. For district-wide financial statements, the School District reports deferred inflows of resources as a result of pension and OPEB plan earnings. This amount is the result of a difference between what the plan expected to earn from the plan investments and what the plan actually earned. This amount will be amortized over the next four years and included in pension and OPEB expense. Changes in assumptions and experience differences relating to the net pension and OPEB liabilities are deferred and amortized over the expected remaining services lives of the employees and retirees in the plans. Deferred inflows of resources also includes revenue received relating to the amounts included in the deferred outflows for payments related to MPSERS Unfunded Actuarial Accrued Liabilities (UAAL) Stabilization defined benefit pension statutorily required contributions.

<u>Fund Balance</u> – In the fund financial statements, governmental funds report fund balance in the following categories:

Non-spendable – amounts that are not in spendable form or are legally or contractually required to be maintained intact.

<u>Restricted</u> – amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for use for a specific purpose.

<u>Committed</u> – amounts that have been formally set aside by the Board of Education for use for specific purposes. Commitments are made and can be rescinded only via resolution of the Board of Education.

<u>Assigned</u> – intent to spend resources on specific purposes expressed by the Board of Education or superintendent, or the superintendent's designee, who is authorized by policy approved by the Board of Education to make assignments

<u>Unassigned</u> – amounts that do not fall into any other category above. This is the residual classification for amounts in the General Fund and represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes in the General Fund. In other governmental funds, only negative unassigned amounts are reported, if any, and represent expenditures incurred for specific purposes exceeding the amounts previously restricted, committed, or assigned to those purposes.

When an expense is incurred for purposes for which both restricted and unrestricted net position or fund balance are available, the School District's policy is to first apply restricted resources. When an expense is incurred for purposes which amounts in any of the unrestricted fund

balance classifications could be used, it is the School District's policy to spend funds in this order: committed, assigned, and unassigned.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, as well as deferred inflows and deferred outflows of resources at the date of the financial statements and the reported amounts of revenue and expenditures during the reporting period. Actual results could differ from those estimates.

Eliminations and Reclassifications

In the process of aggregating data for the statement of net position and the statement of activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Adoption of New Accounting Standards

Statement No. 84, *Fiduciary Activities* improves the guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The focus of the criteria includes the following: (1) is the government controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. The four fiduciary funds that should be reported, if applicable are: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally will report fiduciary activities that are not held in a trust or similar arrangement that meets specific criteria. Management has determined to implement the requirements of this Statement for the fiscal year ending June 30, 2020, in accordance with the original implementation date of the statement.

Statement No. 90, *Majority Equity Interests* improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improves the relevance of financial statement information for certain components. Management has determined to implement the requirements of this Statement for the fiscal year ending June 30, 2020, in accordance with the original implementation date of the statement.

Statement No. 92, Omnibus 2020 enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics and includes specific provisions about the following: (1) The effective date of Statement No. 87, Leases, and Implementation Guide No. 2019-3, Leases, for interim financial reports (2) Reporting of intra-entity transfers of assets between a primary government employer and a component unit defined benefit pension plan or defined benefit other postemployment benefit (OPEB) plan. (3) The applicability of Statements No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, as amended, and No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, to reporting assets accumulated for postemployment benefits. (4) The applicability of certain requirements of Statement No. 84, Fiduciary Activities, to postemployment benefit arrangements. (5) Measurement of liabilities (and assets, if any) related to asset retirement obligations (AROs) in a government acquisition. (6) Reporting by public entity risk pools for amounts that are recoverable from reinsurers or excess insurers. (7) Reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature. (8) Terminology used to refer to derivative instruments. Management has implemented the required portions of this Statement and will implement the remaining requirements as each Statement referenced becomes effective.

Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance* provides a temporary relief to governments and other stakeholders in light of the COVID-19 pandemic and provides a postponement of certain GASB Statements. This statement was effective upon issuance in May of 2020.

Upcoming Accounting and Reporting Changes

Statement No. 87, *Leases* increases the usefulness of the District's financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. A lessee will be required to recognize a lease liability and an intangible right-to-use a lease asset, and a lessor will be required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about the District's leasing activities. The requirements of this Statement are effective for the fiscal year ending June 30, 2022.

Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period enhances the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. It requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reporting in a business-type activity or enterprise fund. Interest cost incurred before the end of a construction period should be recognized as an expenditure for financial statements prepared using the current financial resources measurement. The requirements of this Statement are effective for the fiscal year ending June 30, 2022.

Statement No. 91, *Conduit Debt Obligations* provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This statement is effective for the year ending June 30, 2023.

Statement No. 93, Replacement of Interbank Offered Rates establishes accounting and financial reporting requirements related to the replacement of IBORs in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for hedging derivative instruments. The requirements of this Statement apply to the financial statements of all state and local governments. The requirements of this Statement apply to the financial statements of all state and local governments. This statement is effective for the year ending June 30, 2022.

Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines

or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. This statement is effective for the year ending June 30, 2023.

The School District is evaluating the impact these pronouncements will have on its financial reporting.

Note 2 - Stewardship, Compliance, and Accountability

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles and state law for the General Fund and all special revenue funds. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. The statement of revenue, expenditures, and changes in fund balance presents capital outlay separately, as required by generally accepted accounting principles. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as assignments of fund balances and do not constitute expenditures or liabilities because the goods or services have not been received as of year end; the commitments will be re-appropriated and honored during the subsequent year.

The special revenue funds budgetary comparison schedules presented in other supplemental information and the budgetary comparison schedule for the General Fund presented in required supplemental information are presented in conformity with accounting principles generally accepted in the United States of America and are presented in more detail than the formally adopted budget.

Excess of Expenditures over Appropriations

During the year, the School District incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated as follows:

Function	 Final Budget		Amount of penditures	Budget ariances
General Fund				
Operations and maintenance	\$ 9,260,990	\$	9,294,719	\$ 33,729
Pupil transportation services	4,081,349		4,093,367	12,018
Capital outlay	-		11,366	11,366
Food service fund	3,765,430		4,043,498	278,068
Student/school activity fund	2,169,734		2,413,683	243,949

Note 3 - Deposits and Investments

State statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at

the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority. The School District has designated several banks for the deposit of its funds.

The investment policy adopted by the board has authorized investments as listed in the state statutory authority as listed above.

The School District's cash and investments are subject to several types of risk, which are examined in more detail below:

<u>Interest rate risk</u> – Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's investment policy does not restrict investment maturities, other than commercial paper which can only be purchased with a 270-day maturity. The School District's policy minimizes interest rate risk by requiring structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the School District's cash requirements.

<u>Credit risk</u> – State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District's investment policy limits investments in commercial papers to a rating of A or above by two nationally recognized statistical rating organizations.

The School District's deposits and investments were reported in the basic financial statements in the following categories:

						Total	
	G	overnmental	F	duciary		Primary	
		Activities		Funds	Government		
Cash	\$	10,229,258	\$	26,835	\$	10,256,093	
Investments		3,555,407				3,555,407	
	\$	13,784,665	\$	26,835	\$	13,811,500	

The breakdown between deposits and investments for the School District is as follows:

Deposits (checking, savings accounts, money markets, certificates of deposit)	\$ 11.468.444
Investments in securities, mutual funds,	Ψ 11,100,111
and similar vehicles	2,278,008
Petty cash and cash on hand	65,048
Total	\$ 13,811,500

At year end, the School District had the following investments:

				Rating
Investment	Fair Value	Maturities	Rating	Organization
	_			
Michigan Liquid Asset Fund	\$ 2,278,008	< 60 days	AAAm	S&P

<u>Concentration of credit risk</u> – The School District places no limit on the amount the School District may invest in any one issuer. The School District's policy minimizes concentration of credit risk by requiring diversification of the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

<u>Foreign currency risk</u> – Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. State law and the School District's policy prohibit investment in foreign currency.

<u>Custodial credit risk – deposits</u> – For deposits, this is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District's investment policy requires that financial institutions be evaluated and only those with an acceptable risk level be used for the School District's deposits for custodial credit risk. At year end, the School District's deposit balance of \$ 12,019,510 had \$ 11,196,615 in bank deposits (certificates of deposit and checking and savings accounts) that were uninsured and uncollateralized. The School District believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the School District evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

<u>Custodial credit risk – investments</u> – For an investment, this is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's policy for custodial credit risk states custodial credit risk will be minimized by limiting investments to the types of securities allowed by state law, and by pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the School District will do business using the criteria established in the investment

policy. The School District does not have investments with custodial credit risk.

Note 4 - Fair Value Measurements

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The School District has the following recurring fair value measurements as of June 30, 2020:

- Amounts invested in MILAF + Portfolio of \$ 2,278,008. The MILAF + Portfolio is not registered under Rule 2a-7 under the Investment Company Act of 1940. The money market securities are valued using amortized cost, which generally approximates the current fair value of the security. However, the value is not obtained from a quoted price in an active market. (Level 2 inputs)
- The fair values of the interest rate swaps (see Note 9) were estimated using the zero coupon method. This method calculates the future net settlement payments required by the swaps, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero coupon bonds due on the date of each future net settlement on the swaps. (Level 2 inputs)

Note 5 - Capital Assets

Capital asset activity of the School District's governmental activities was as follows:

		Beginning						Ending
		Balance		Increases		Decreases		Balance
Governmental activities								
Capital assets not being depreciated								
Land	\$	7,297,620	\$	-	\$	-	\$	7,297,620
Construction-in-progress	_	1,006,367	_	<u>-</u>		1,006,367	_	
Total capital assets not being depreciated	_	8,303,987	_		_	1,006,367		7,297,620
Capital assets being depreciated								
Buildings and building improvements		343,359,824		1,147,310		-		344,507,134
Equipment and furniture		48,477,975		308,513		6,438		48,780,050
Buses and other vehicles	_	7,922,997	_	<u>-</u>	_	664,695	_	7,258,302
Total capital assets being depreciated	_	399,760,796	_	1,455,823	_	671,133	_	400,545,486
Less accumulated depreciation for								
Buildings and building improvements		132,038,530		6,628,508		-		138,667,038
Equipment and furniture		43,608,152		1,390,006		-		44,998,158
Buses and other vehicles	_	4,749,707		655,634		598,225	_	4,807,116
Total accumulated depreciation	_	180,396,389	_	8,674,148	_	598,225	_	188,472,312
Net capital assets being depreciated	_	219,364,407		(7,218,325)		72,908	_	212,073,174
Net capital assets	\$	227,668,394	\$	(7,218,325)	\$	1,079,275	\$	219,370,794

Depreciation expense was not charged to activities as the School District considers its assets to impact multiple activities and allocation is not practical. Unallocated depreciation expense, as reported on the statement of activities, does not include direct depreciation expenses of the various programs. Disposals relate to normal disposal of assets which are no longer held by the School District.

June 30, 2020

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

•						Nonmajor	_	
				2017B	Go	vernmental		
Receivable Fund	G	eneral Fund	R	Refunding		Funds		Total
General Fund	\$	-	\$	-	\$	1,663,185	\$	1,663,185
2018B Refunding Fund		-		-		39,571		39,571
Nonmajor Governmental Funds		1,474,489		4,200		252,792		1,731,481
Internal Service Fund		2,561,204						2,561,204
Total	\$	4,035,693	\$	4,200	\$	1,955,548	\$	5,995,441

The outstanding balances between funds result mainly from the time lag between the dates that transactions are recorded in the accounting system and payments between funds are made.

Managements does not anticipated individual interfund balances to remain outstanding for periods in excess of one year.

Inte

Interfund transfers consist of the following:	Transfers Out				
	N	lonmajor			
	Gov	vernmental			
		Funds			
Transfers in					
General Fund	\$	251,570			
Nonmajor governmental funds		68,713			
	\$	320,283			

These transfers were made to cover the costs of School District programs that were in excess of revenues generated from those activities.

Note 7 - Receivables and Unavailable and Unearned Revenue

Receivables as of year end for the School District's individual major funds and the nonmajor and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

			No	nmajor		Total
	(General	Gove	rnmental	Go	vernmental
		Fund	F	unds		Funds
Receivables:						
Accounts receivable	\$	705,743	\$	2,945	\$	708,688
Interest and other		-	1,	319,450		1,319,450
Due from other governmental units	_1	5,255,795		334,942	_1	15,590,737
Total receivables	\$ 1	5,961,538	\$ 1,	657,337	\$ 1	17,618,875

Due from other governmental units is from the State of Michigan for the July and August state aid payments. It also includes amounts due from the federal government for grants receivable of approximately \$ 1,792,000.

Governmental funds report unearned revenue in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the components of unearned revenue are as follows:

	L	Inearned
Grant and categorical aid payments received prior to meeting all eligibility requirements	\$	333,262
Summer tuition and fall school charges and other payments received prior to services		
being rendered		71,435
Total	\$	404,697

Note 8 - Long-Term Debt

The School District issues bonds, notes, and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. The State can withhold state aid if it has to make a bond payment on behalf of the School District related to qualified bonds. For the School Loan Revolving Fund, the State may withhold state aid if the School District is in default, or apply late charges in an instance of default or fails to appropriately levy debt mills. Other long-term obligations include compensated absences and an employee severance liability.

Long-term debt activity is summarized as follows:

					Amount Due
	Beginning			Ending	Within One
	Balance	Additions	Reductions	Balance	Year
Bonds payable					
General obligation bonds	\$ 260,475,000	\$ 53,000,000	\$ 94,030,000	\$ 219,445,000	\$ 42,250,000
Issuance premiums	14,471,490	-	1,107,360	13,364,130	-
Interest rate swap	9,680,683	3,596,994		13,277,677	
Total bonds payable	284,627,173	56,596,994	95,137,360	246,086,807	42,250,000
Notes from direct borrowings					
School Loan Revolving Fund	9,322,802	32,478,201	_	41,801,003	-
School Loan Revolving Fund -	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,			,,	
Accrued interest	238,316	497,389		735,705	
Total notes from					
direct borrowings	9,561,118	32,975,590		42,536,708	
Other liabilities					
Employee severance liability	228,350	-	29,200	199,150	15,000
Employee compensated			,	•	
absences	2,307,354	1,641,923	1,388,073	2,561,204	254,715
Total other liabilities	2,535,704	1,641,923	1,4 17,273	2,760,354	269,715
Total	\$ 296,723,995	\$ 91,214,507	\$ 96,554,633	\$ 291,383,869	\$ 42,519,715

Annual debt service requirements to maturity for the above bonds are as follows:

	Principal		Interest		Total	
Year Ending June 30						
2021	\$	42,250,000	\$	8,691,837	\$	50,941,837
2022		43,570,000		7,390,805		50,960,805
2023		10,960,000		5,981,277		16,941,277
2024		7,475,000		5,460,888		12,935,888
2025		7,695,000		5,115,382		12,810,382
2026-2030		42,990,000		19,977,320		62,967,320
2031-2035		50,230,000		9,406,747		59,636,747
2036-2040		14,275,000	_	1,600,875		15,875,875
Total	\$	219,445,000	\$	63,625,131	\$	283,070,131

Governmental Activities

General obligation bonds payable at year end, consist of the following:

4,795,000 original issue serial bonds due in annual installments of $1,000,000$ through May 1, 2022, interest at $3.0%$ to $4.0%$	\$ 2,000,000
\$91,600,000 original issue serial bonds due in annual installments beginning May 1, 2019 of \$28.4 million to \$32 million through May 1, 2022, interest at 2.159% to 2.678%	63,200,000
$$28,\!960,\!000$ original issue serial bonds due in annual installments of $$3,\!085,\!000$ to $$3,\!775,\!000$ through May 1, 2023, interest at 4.0% to 5.0%	10,935,000
\$53,000,000 original issue serial bonds due in annual installments of \$2,375,000 to \$4,250,000 through May 1, 2035, interest at 3.64%	50,625,000
\$118,685,000 original issue serial bonds due in annual installments of \$2,835,000 to \$6,340,000 through May 1, 2040, interest at 3.75% to 5.0%	92,685,000
Total general obligation bonded debt	\$ 219,445,000

School Loan Revolving Fund

The School Loan Revolving Fund payable represents notes payable to the State of Michigan for loans made to the School District, as authorized by the 1963 State of Michigan Constitution, for the purpose of paying principal and interest on general obligation bonds of the School District issued for capital expenditures. Interest rates are to be annually determined by the State Administrative Board in accordance with Section 9 of Act No. 92 of the Public Acts of 2005, as amended. Interest was charged at 3.19 to 3.46 percent during the year ended June 30, 2019. Repayment is required when the revenue from the computed millage rate exceeds the amount sufficient to pay debt service on qualified bonds. The School District is required to levy at least 7.0 mills and repay to the State any excess of the amount levied over the bonded debt service requirements. Due to recent legislated changes to the School Loan Revolving Fund program, participating

districts are now required to adjust their annual millage rate to amounts between 7.0 and 13.0 mills, depending on a specified formula. Additionally, the School District has been provided a mandatory repayment date of May 1, 2046, although there are no required principal and interest payments each year. Due to the variability of the factors that affect the timing of repayment, including the future amount of state-equalized value of property in the School District, no provision for repayment has been included in the above amortization schedule.

Note 9 - Derivative Instruments

During the current year, the School District had one interest rate swap agreement in connection with its \$70.13 million 2008 School Building and Site variable rate bonds.

Hedging Derivative Instrument - The swap agreement (referred to as SIFMA) was entered into in August 2005, with an effective date that coincided with the issuance date of the bonds in May 2008. The intention of the swap was to effectively hedge the changes in cash flows related to the interest payments on the variable rate bonds. At June 30, 2020, the swap's notional amount of \$50,625,000 matched the \$50,625,000 outstanding balance of the variable rate bonds. The notional value of the swap and the principal amount of the associated debt decline at the same rate until maturity in May 2035. Under the swap, the School District pays the counterparty a fixed payment of 3.639 percent and receives a variable payment computed at the Securities Industry and Financial Markets Association Municipal Swap Index™ (SIFMA) rate. The bonds' variable rate coupons are determined by the remarketing agent based on the rate necessary to remarket the bonds. This rate approximates the SIFMA rate at June 30, 2020. At June 30, 2020, the SIFMA swap had a negative fair value of \$ 13,277,677, which was recorded in other long-term liabilities on the statement of net position. As the swap is a hedging instrument, the change in fair value is considered a deferred outflow of resources on the statement of net position.

Credit Risk - The swap counterparty was rated AA- by Fitch Ratings, A+ by Standard & Poor's, and Aa2 by Moody's Investors Service as of June 30, 2020. In the event that the counterparty were to default on the swap agreement, the School District would have the option to enter into another swap agreement. The School District was not exposed to credit risk related to the SIFMA swap as the fair market value of that swap was negative at June 30, 2020.

Interest Rate Risk - The School District is exposed to interest rate risk on the swap agreement, since changes in the interest rate market will affect the fair value of the swap agreement.

Basis Risk - The SIFMA swap exposes the School District to basis risk because the variable-rate payments received by the School District on the hedging derivative instrument are based on an index other than interest rates the School District pays on its hedged variable-rate debt, which is remarketed every seven days. As of June 30, 2020, the SIFMA swap index rate was .13 percent, whereas the weighted average interest rate on the School District's hedged variable rate debt on the bonds was .1193 percent.

Termination Risk - The School District or the counterparty may terminate the swap agreement if the other party fails to perform under the terms of the contract. The swap may be terminated by the counterparty if the School District's credit quality rating and the State of Michigan's credit quality rating fall below "A" as issued by Standard & Poor's or Moody's Investors Service. If the SIFMA swap is terminated, the variable rate bond would no longer carry a synthetic interest rate. Also, if at the time of termination, the swap has a negative fair value, the School District would be liable to the counterparty for a payment equal to the swap's fair value. To mitigate the termination risk, the School District has obtained swap insurance that would cover the termination payment in the event that the School District were to default on the terms of the swap agreement.

Derivative Instrument Payments and Hedged Debt - As of June 30, 2020, aggregate debt service requirements of the School

District's debt and net receipts/payments on associated hedging derivative instruments (the SIFMA swap) are presented below. These amounts assume that current interest rates on variable-rate bonds and the current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the SIFMA swap will vary. The data below has also been included in the principal and interest payment schedules included in Note 8.

			Hedging Derivatives-					
		Principal		Interest		Net		Total
Year Ending June 30								
2021	\$	2,500,000	\$	60,411	\$	1,776,431	\$	4,336,842
2022		2,625,000		57,428		1,688,706		4,371,134
2023		2,750,000		54,295		1,596,595		4,400,890
2024		2,875,000		51,014		1,500,098		4,426,112
2025		3,000,000		47,583		1,399,214		4,446,797
2026-2030		16,875,000		181,232		5,329,294		22,385,526
2031-2035	_	20,000,000		73,089	_	2,149,262	_	22,222,351
Total	\$	50,625,000	\$	525,052	\$	15,439,600	\$	66,589,652

Note 10 - Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries (workers' compensation) as well as medical benefits provided to employees. The School District has purchased commercial insurance for property loss, torts, errors and omissions, and medical benefit claims; the School District is self-insured for workers' compensation claims up to \$500,000 per occurrence. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in the past three fiscal years. There were no changes in insurance coverage by major category of risk from that of the preceding year.

The School District is insured under a retrospectively rated policy and estimates the liability for employee injury claims that have been incurred through the end of the fiscal year, including both those claims that have been reported as well as those that have not yet been reported. These estimates are recorded in the basic financial statements. The estimates and changes in estimates were not material to the financial statements.

Note 11 - Pension Plan

Plan Description

The Michigan Public School Employees' Retirement System (System or MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members - eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System's pension plan was established by the State to provide retirement, survivor and disability benefits to public school employees. In addition, the System's health plan provides all retirees with the option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act (1980 PA 300 as amended).

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

The System's financial statements are available on the ORS website at www.michigan.gov/orsschools.

Benefits Provided

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Depending on the plan option selected, member retirement benefits are determined by final average compensation, years of service, and a pension factor ranging from 1.25 percent to 1.50 percent. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

A DB plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account if applicable. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

Contributions

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued

liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2018 valuation will be amortized over a 20-year period beginning October 1, 2018 and ending September 30, 2038.

The schedule below summarizes pension contribution rates in effect for fiscal year ended September 30, 2019.

Poncion Contribution Pates

Pension Continuation Rates					
Benefit Structure	Member	Employer			
Basic	0.0 - 4.0%	18.25%			
Member Investment Plan	3.0 - 7.0%	18.25%			
Pension Plus	3.0 - 6.4%	16.46%			
Pension Plus 2	6.2%	19.59%			

Required contributions to the pension plan from the School District were \$ 18,279,723 for the year ending September 30, 2019.

0.0%

13.39%

Defined Contribution

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the School District reported a liability of \$227,876,568 for its proportionate share of the MPSERS net pension liability. The net pension liability was measured as of September 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation rolled forward from September 2018. The School District's proportion of the net pension liability was determined by dividing each employer's statutorily required pension contributions to the system during the measurement period by the percent of pension contributions required from all applicable employers during the measurement period. At September 30, 2019, the School District's proportion was .6881 percent, which was a decrease of .0188 percent from its proportion measured as of September 30, 2018.

Notes to the Financial Statements June 30, 2020

For the plan year ending September 30, 2019, the School District recognized pension expense of \$ 31,970,974 for the measurement period. For the reporting period ending June 30, 2020, the School District recognized total pension contribution expense of \$18,654,934.

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred	
	Outflows of	Inflows of	
	Resources	Resources	Total
Difference between expected and actual experience	\$ 1,021,415	\$ (950,223)	\$ 71,192
Changes of assumptions	44,618,392	-	44,618,392
Net difference between projected and actual earnings on pension plan investments	-	(7,303,057)	(7,303,057)
Changes in proportion and differences between the School District contributions and proportionate share of			
contributions		(8,713,692)	(8,713,692)
Total to be recognized in future	45,639,807	(16,966,972)	28,672,835
School District contributions subsequent to the measurement	47 500 457	(7.540.504)	40 000 500
date	17,599,157	(7,512,564)	10,086,593
Total	\$63,238,964	\$(24,479,536)	\$38,759,428

Contributions subsequent to the measurement date reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended

June 30, 2021. The District will offset the contribution expense in the year ended June 30, 2021 with the 147c supplemental income received subsequent to the measurement date which is included in the deferred inflows of resources.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows during the following plan years:

Deferred (Inflow) and Deferred Outflow of Resources by Year (To Be Recognized in Future Pension Expenses)

(10 DC 11Coognized in 1 dtale 1	Cholon Expended
2020	\$ 11,344,053
2021	8,893,852
2022	5,897,373
2023	2,537,557
	\$ 28,672,835

Actuarial Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Additional information as of the latest actuarial valuation follows:

Summary of Actuarial Assumptions:

• Valuation Date: September 30, 2018

• Actuarial Cost Method: Entry Age, Normal

- Wage inflation rate: 2.75%
- Investment Rate of Return:
 - o MIP and Basic Plans (Non-Hybrid): 6.80%
 - o Pension Plus Plan (Hybrid): 6.80%
 - o Pension Plus 2 Plan: 6.00%
- Projected Salary Increases: 2.75 11.55%, including wage inflation at 2.75%
- Cost-of-Living Pension Adjustments: 3% Annual Non-Compounded for MIP Members
- Mortality: RP-2014 Male and Female Combined Healthy Life Mortality Tables. For retirees, the tables were scaled by 82% for males and 78% for females and adjusted for mortality improvements using projection scale MP-2017 from 2006. For active members, the tables were scaled 100% and adjusted for mortality improvements using projection scale MP-2017 from 2006.

Assumption changes as a result of an experience study for the period 2007 through 2012 have been adopted by the System for use in the annual pension valuations beginning with the September 30, 2017 valuation. The total pension liability as of September 30, 2019, is based on the results of an actuarial valuation date of September 30, 2018, and rolled forward using generally accepted actuarial procedures, including the experience study.

Recognition period for liabilities is the average of the expected remaining service lives of all employees is 4.4977 years.

Recognition period for assets in years is 5 years.

Full actuarial assumptions are available in the 2019 MPSERS Comprehensive Annual Financial Report found on the ORS website at www.michigan.gov/orsschools.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2019, are summarized in the following table:

		Long Term
	Target	Expected Real
Asset Class	Allocation	Rate of
Domestic Equity Pools	28.0 %	5.5 %
Alternative Investment Pools	18.0	8.6
International Equity	16.0	7.3
Fixed Income Pools	10.5	1.2
Real Estate and Infrastructure Pools	10.0	4.2
Absolute Return Pools	15.5	5.4
Short Term Investment Pools	2.0	8.0
	100.0%	

^{*}Long-term rates of return are net of administrative expenses and 2.3% inflation.

Rate of Return

For the fiscal year ended September 30, 2019, the annual money-weighted rate of return on pension plan investment, net of pension plan investment expense, was 5.14%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

A discount rate of 6.80% was used to measure the total pension liability (6.80% for the Pension Plus plan, 6.0% for Pension Plus 2, hybrid plans provided through non-university employers only). This discount rate was based on the long-term expected rate of return on pension plan investments of 6.80% (6.80% for the Pension Plus plan, 6.0% for the Pension Plus 2 plan). The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 6.80% (6.80% for the Pension plus plan, 6.0% for the Pension Plus 2 plan), as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage higher:

Current Single						
Discount Rate						
1% Decrease *	Assumption *	1% Increase *				
5.80% / 5.80% / 5.00%	6.80% / 6.80% / 6.00%	7.80% / 7.80% / 7.00%				
\$ 296,254,117	\$ 227,876,568	\$ 171,189,225

Michigan Public School Employees' Retirement System (MPSERS) Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued MPSERS CAFR, available on the ORS website at www.michigan.gov/orsschools.

Payables to the Michigan Public School Employees' Retirement System (MPSERS)

There were no significant payables to the pension plan that are not ordinary accruals to the School District.

^{*}Discount rates listed in the following order: Basic and Member Investment Plan (MIP), Pension Plus, and Pension Plus 2.

Note 12 - Post-employment Benefits Other Than Pensions (OPEB)

Plan Description

The Michigan Public School Employees' Retirement System (System or MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members— eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System's health plan provides all eligible retirees with the option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act (1980 PA 300 as amended).

The System is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

The System's financial statements are available on the ORS website at www.michigan.gov/orsschools.

Benefits Provided

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide

the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree healthcare recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP Graded plan members) the subsidy is the maximum allowed by statute. To limit future liabilities of Other Postemployment Benefits, members who first worked on or after July 1, 2008 (MIP-Plus plan members) have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date. Dependents are eligible for healthcare coverage if they meet the dependency requirements set forth in Public Act 300 of 1980, as amended.

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012 or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's transition date, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3%

contribution to retiree healthcare as of the day before their transition date, and their prior contributions were deposited into their 401(k) account.

Contributions

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer OPEB contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2018 valuation will be amortized over a 20-year period beginning October 1, 2018 and ending September 30, 2038.

The schedule below summarizes OPEB contribution rates in effect for fiscal year 2019.

OPEB Contribution Rates

Benefit Structure	Member	Employer
Premium Subsidy	3.0%	7.93%
Personal Healthcare Fund (PHF)	0.0%	7.57%

Required contributions to the OPEB plan from the School District were \$ 4,698,032 for the year ended September 30, 2019.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB At June 30, 2020, the School District reported a liability of \$ 49,112,894 for its proportionate share of the MPSERS net OPEB liability. The net OPEB liability was measured as of September 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation rolled forward from September 2018. The School District's proportion of the net OPEB liability was determined by dividing each employer's statutorily required OPEB contributions to the system during the measurement period by the percent of OPEB contributions required from all applicable employers during the measurement period. At September 30, 2019, the School District's proportion was .6842 percent, which was a decrease of .0059 percent from its proportion measured as of September 30, 2018.

For the plan year ending September 30, 2019, the School District recognized OPEB expense of \$ 486,246 for the measurement period. For the reporting period ending June 30, 2020, the School District recognized total OPEB contribution expense of 4,662,787.

Notes to the Financial Statements June 30, 2020

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred	
	Outflows of	Inflows of	
	Resources	Resources	Total
Difference between expected and actual experience	\$ -	\$(18,020,910)	\$(18,020,910)

Net difference between projected and actual earnings on OPEB plan investments	-	(854,097)	(854,097)
Changes in proportion and differences between the School District contributions and proportionate share of			
contributions		(2,883,048)	(2,883,048)
Total to be recognized in future	10,641,770	(21,758,055)	(11,116,285)
School District contributions subsequent to the measurement			
date	4,204,046		4,204,046
Total	\$ 14,845,816	<u>\$(21,758,055)</u>	\$ (6,912,239)

Contributions subsequent to the measurement date reported as deferred outflows of resources related to OPEB resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows during the following plan years:

Deferred (Inflow) and Deferred Outflow of Resources by Yea	ar
(To Be Recognized in Future OPEB Expenses)	

III I didie OF LD Lypenses)	(10 De Necognized
\$ (3,056,388)	2020
(3,056,388)	2021
(2,627,996)	2022
(1,699,842)	2023
(675,671)	2024
<u>\$ (11,116,285)</u>	

Actuarial Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Additional information as of the latest actuarial valuation follows:

Summary of Actuarial Assumptions:

• Valuation Date: September 30, 2018

• Actuarial Cost Method: Entry Age, Normal

• Wage inflation rate: 2.75%

Investment Rate of Return: 6.95%

Projected Salary Increases: 2.75 – 11.55%, including wage inflation at 2.75%

L'Anse Creuse Public Schools Notes to the Financial Statements June 30, 2020

- Healthcare Cost Trend Rate: 7.5% Year 1 graded to 3.5% Year
 12
- Mortality: RP-2014 Male and Female Combined Healthy Life Mortality Tables. For retirees, the tables were scaled by 82% for males and 78% for females and adjusted for mortality improvements using projection scale MP-2017 from 2006. For active members, the tables were scaled 100% and adjusted for mortality improvements using projections scale MP-2017 from 2006.

Other Assumptions:

- Opt Out Assumptions: 21% of eligible participants hired before July 1, 2008 and 30% of those hired after June 30, 2008 are assumed to opt out of the retiree health plan
- Survivor Coverage: 80% of male retirees and 67% of female retirees are assumed to have coverages continuing after the retiree's death
- Coverage Election at Retirement: 75% of male and 60% of female future retirees are assumed to elect coverage for 1 or more dependents.

Assumption changes as a result of an experience study for the period 2012 through 2017 have been adopted by the System for use in the annual pension valuations beginning with the September 30, 2017 valuation. The total OPEB liability as of September 30, 2019, is based on the results of an actuarial valuation date of September 30, 2018, and rolled forward using generally accepted actuarial procedures, including the experience study.

Recognition period for liabilities is the average of the expected remaining service lives of all employees is 5.7101 years.

Recognition period for assets is 5 years.

Full actuarial assumptions are available in the 2019 MPSERS Comprehensive Annual Financial Report found on the ORS website at www.michigan.gov/orsschools.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of September 30, 2019, are summarized in the following table:

	Long Term
Target	Expected Real
Allocation	Rate of
28.0 %	5.5 %
18.0	8.6
16.0	7.3
10.5	1.2
10.0	4.2
15.5	5.4
2.0	8.0
100.0%	•
	Allocation 28.0 % 18.0 16.0 10.5 10.0 15.5 2.0

^{*}Long-term rates of return are net of administrative expenses and 2.3% inflation.

L'Anse Creuse Public Schools Notes to the Financial Statements June 30, 2020

Rate of Return

For the fiscal year ended September 30, 2019, the annual money-weighted rate of return on OPEB plan investment, net of OPEB plan investment expense, was 5.37%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

A discount rate of 6.95% was used to measure the total OPEB liability. This discount rate was based on the long-term expected rate of return on OPEB plan investments of 6.95%. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the School District's proportionate share of the net OPEB liability calculated using the discount rate of 6.95%, as well as what the School District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage higher:

			Current		
•	1% Decrease	Di	scount Rate	1	% Increase
	5.95%		6.95%		7.95%
\$	60,244,344	\$	49,112,894	\$	39,765,567

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Healthcare Cost Trend Rate

The following presents the School District's proportionate share of the net OPEB liability calculated using assumed trend rates, as well as what the School District's proportionate share of net OPEB liability would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher:

		Ouri	ent Healthcare	
1%	Decrease	Co	st Trend Rate	1% Increase
\$	39,369,281	\$	49,112,894	\$ 60,243,024

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued 2019 MPSERS CAFR, available on the ORS website at www.michigan.gov/orsschools.

Payables to the OPEB Plan

There were no significant payables to the OPEB plan that are not ordinary accruals to the School District.

Note 13 - Contingent Liabilities

Amounts received or receivable from grantor agencies are subjected to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of costs which may be disallowed by the grantor cannot be determined at this time although the School District expects such amounts, if any, to be immaterial. A separate report on federal compliance has been issued for the year June 30, 2020.

L'Anse Creuse Public Schools Notes to the Financial Statements June 30, 2020

Note 14 - Tax Abatements

School Districts may receive reduced property tax revenues as a result of Industrial Facilities Tax exemptions and Brownfield Redevelopment Agreements granted by the various municipalities within the School District boundaries. Industrial facility exemptions are intended to promote construction of new industrial facilities, or to rehabilitate historical facilities; Brownfield redevelopment agreements are intended to reimburse taxpayers that remediate environmental contamination on their properties.

For the fiscal year ended June 30, 2020, the School District's property tax revenues were reduced by approximately \$ 105,324 under these programs.

There are no significant abatements made by the School District.

Note 15 - Change in Accounting Principle

As indicated in Note 1, Governmental Accounting Standards Board Statement 84 has been adopted. The standard requires this change be applied retroactively. The impact of this change is to increase beginning net position in the statement of activities as of July 1, 2019 by \$ 1,373,426, restating it from (\$ 282,252,877) to (\$ 280,879,451). The Statement of Changes in Fiduciary Net Position was restated by \$ 27,335.

Note 16 - Subsequent Event

As result of the global coronavirus pandemic of 2020, the financial picture for Michigan School Districts has seen an unanticipated change. The duration and full effects of the outbreak are currently unknown, as the local and global picture continues to change frequently. To reduce the chance of spreading COVID-19; in March 2020, public schools were closed for the remainder of the 2019-2020 school year. As a result of the pandemic, the State of Michigan

encountered a revenue shortfall resulting in a revenue reduction for Districts of \$175 per pupil which reduced the state aid payment in August of 2020. Subsequent to year end, multiple new revenue sources were approved; including Public Act 123 of 2020 which provides Districts an approximate \$12.32 per pupil and Public Act 146 of 2020 which provides Districts \$350 per pupil. These new revenue streams approved after June 30, 2020 will be recognized in the fiscal year ended June 30, 2021 in accordance with reporting criteria established by the Governmental Accounting Standards Board. Additionally, the "Return to Learn" legislation passed subsequent to year end which modifies the per pupil foundation allowance calculation and allows flexibilities in the days and attendance requirements for Districts. Local districts are able to decide whether to provide instruction virtually or face to face for the 2020-2021 school year. Currently, it is not possible to estimate the full extent of any potential impacts to the District or to determine if any changes in fair values are other than temporary in nature. Accordingly, no adjustments to the financial statements were made as a result of these events.

L'Anse Creuse Public Schools Required Supplementary Information Budgetary Comparison Schedule - General Fund For the Year Ended June 30, 2020

STATISTICAL SECTION AND OTHER INFORMATION (UNAUDITED)

Description of Statistical Section June 30, 2020

This part of the School District's Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplemental information says about the School District's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trend Information These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.	7 - 2
Revenue Capacity Information These schedules contain information to help the reader assess the School District's most significant local revenue source, the property tax.	7 - 6
Debt Capacity Information These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	7 - 10
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the School District's financial activities take place.	7 - 13
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	7 - 15

City of Mount Clemens City of St. Clair Shores Chesterfield Township Clinton Township Harrison Township Macomb Township Macomb County Clinton-Macomb Public Library	\$ 11,540,857 36,647,275 26,718,806 74,706,827 12,617,295 33,214,693 265,590,000 14,912,081	4.15% 0.10% 52.42% 14.68% 100.00% 8.36% 8.78% 11.32%	\$ 479,442 38,256 14,005,785 10,966,828 12,617,295 2,776,362 23,328,739 1,688,048
Total overlapping debt			65,900,755
Direct School District Debt: General obligation bonds School Bond Loan/School Loan Revolving Fund			219,445,000 42,536,708
Total direct and overlapping debt			\$ 327,882,463

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the School District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses within the School District. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is not within other districts.
