

SAT Khan Academy Schoology Course

This **asynchronous** course will provide incoming juniors an opportunity to explore the tools available on the College Board Student Portal and the free SAT prep that is available through Khan Academy. The course will help each student link their accounts, so that Khan Academy will use their College Board test scores to develop a personalized plan. This plan will identify specific content each student should practice to be more successful on the SAT. Students will be able to work through the course at their own pace and schedule. They will have two weeks to complete the coursework and practice as many items as they can from their personalized plan in Khan Academy. Students will gain the insights of how to navigate both websites so that they can continue using these tools, especially the free SAT prep, well after this course ends. The top three students from each session who completes the course and answers the most correct SAT practice items in Khan Academy will earn a \$10 gift card. The winners will be contacted by email a few days after each session closes.
