

AP Biology

Summer Homework

1. I need your email address, both your school & personal one.
2. Buy the prep book. (See additional sheet with picture of prep book, it is the Barron's AP Biology 2022-2023 Premium Prep Book)
3. Print the AP Biology 2022 & 2023 Free Response Questions from the AP Biology Home page on the AP Central Website. Feel free to print any other past free response questions from the website, they are available under the heading "The Exam", and then scroll down to the "past exam questions", click on that, you will then see all the free response questions from as far back as 1999. (Below is a picture of where to find the 2022 FRQ's).

4. Print the "Sample Exam Questions" from the AP Biology Course and Exam Description from the AP Biology Home page on the AP Central Website. The sample exam questions start on page 207 (of the actual pdf document) and it ends on page 216. The answer key is immediately following on page 217 and on. (A picture below shows you where to find the course and exam description for the sample questions).

The screenshot shows the AP Central website for AP Biology. The browser address bar displays 'apcentral.collegeboard.org/courses/ap-biology/exam'. The navigation menu includes 'Home', 'About AP', 'AP Courses & Exams', 'Exam Ordering, Administration & Scores', 'Instructional Resources', and 'Professional Learning'. The main content area features a purple header with the text 'THE EXAM' and 'AP Biology', accompanied by a DNA helix icon. A 'Sign In to AP Classroom' button is visible. Below the header, a navigation bar lists 'The Course', 'Course Audit', 'Classroom Resources', 'The Exam', and 'Professional Learning'. The 'Exam Overview' section states: 'Exam questions assess the course concepts and skills outlined in the course framework. For more information, download the [AP Biology Course and Exam Description \(CED\)](#). Encourage your students to visit the AP Biology [student page](#) for exam information.' A 'Live Agent' chat button is located in the bottom right corner. The Windows taskbar at the bottom shows the search bar, task view, and various application icons, with the system clock indicating 2:42 PM on 4/19/2023.

5. You will eventually be registering with the AP College Board as an AP Biology student in AP Classroom, so that you can pay for the exam, complete online work in AP Classroom, watch videos, etc... and to receive your score the summer after you have taken the exam. I will send you the code to register, as soon as I receive it, with additional information on how to sign up for AP Classroom. I might just wait until school begins in September to give it to you, as well.
