Public Notice: Pest Management Program

L'Anse Creuse Public Schools would like to inform you that an Integrated Pest Management (IPM) approach for controlling insects, rodents and weeds will be used at all buildings within the district. Pest inspections will be performed on a monthly basis, and a notice will be posted at the main doors 72 prior to inspection. Through maintenance and cleaning, we will reduce or eliminate available food and water sources and hiding places for the pests. We will also routinely monitor the school area to detect pest problems and prevent the pests from becoming established. Some IPM techniques we will employinclude monitoring, increasing sanitation, sealing entrypoints, physically removing pests and modifying storage practices.

From time to time, it may be necessary to use chemicals to control a pest problem. Chemicals will only be used when necessary and will not be routinely applied. When chemicals must be used, the school will use the least toxic products possible. Access to treated areas will be secured against unauthorized access for the period specified on the pesticide label. Notices will be posted at application areas and will remain there until the posted re-entry time is met. You may request prior notification of specific applications made at the school. To receive notification, you must be placed on the notification registry. The registrants will be notified at least 72 hours before a pesticide is applied. If the chemical application must be made to control an emergency pest program, notice will be provided as soon as possible after the application. Exemptions to this notification include cleaners, disinfectants, baits, gels and any EPA-exempt pesticides. If you would like to be placed on this registry, please contact Don Gratton, Director for Operations by Oct. 4, 2021 at (586) 783-6550, ext. 1100.
