August 19, 2016

Dear Parents & Guardians,

I would like to take this opportunity to inform you that if your child receives free or reduced lunch, your child is also eligible to receive free or reduced breakfast. Please note that the free and reduced eligibility is always held in a confidential manner. Many parents are not aware that breakfast is available to all students including free and reduced. It is our goal to have your child receive all of the benefits they deserve from this program. Studies show that children who eat breakfast do better in school. If they skip breakfast they are likely to become tired and their bodies run low on fuel. If you are not receiving free or reduced meals and you would like more information, please feel free to contact the Food & Nutrition office at (586) 783-6550 ext. 1115 or apply online at [www.lunchapp.com](http://www.lunchapp.com).

Sincerely,

Tanya Nofs
